

Greetings, Gawad Kalinga advocate! The GK Light Bulbs form is the vehicle for turning your idea into colorful villages and a brighter future for the poorest of the poor. Whether your idea raises awareness or resources, submission of this form takes your idea to the next step.

You will receive an email or phone call from the GK1mB team confirming receipt of your initiative. A project number will be assigned to your idea for use to track it through evaluation, approval and implementation.

Below are some guidelines to keep in mind as you develop ideas into projects and events for Gawad Kalinga:

- Our mission is involvement in the lives of the poor and in nation building and, as such, GK advocacy is a critical and indispensable part of every project and event;
- All efforts to raise resources for GK must be entirely not for profit - i.e. all net proceeds after reasonable expenses are deducted go to GK ANCOP;
- In exceptional cases where GK ANCOP is not the sole beneficiary, the distribution of proceeds must be agreed upon by all beneficiaries beforehand;
- Submission of projected revenues and expenses is a prerequisite to obtaining approval and support at the national and regional levels;
- Project or event leadership agrees to turn over proceeds within an agreed upon period of time; and
- Use of the GK and ANCOP names, logos and materials require prior approval of GK ANCOP USA.

Upon receipt of approval for your initiative, you obtain the full support and resources of ANCOP USA, including its throng of GK 1mB volunteers throughout the country.
