

## GK BUILDERS CORPS

### **GK Builders Corps: Love for God, Love for Country, Love for the Poor.**

Since Gawad Kalinga's launch of GK 777- to build 700,000 homes in 7,000 GK communities in 7 years, there has been a massive response of volunteerism in helping make this vision a reality. In line with this massive response, Gawad Kalinga has seen the need to form GK Builders Corps, which caters specifically for those volunteers who are willing to give 6 months, 1 year or 2 years of their lives in helping rebuild this nation.

As the vision of GK777 comes to a reality, the work of Gawad Kalinga grows at a massive and fast pace and thus there is a need for a core of workers or servants who can devote more time in implementing and managing the different aspects of the work of Gawad Kalinga and its seven programs in (1) shelter and site development, (2) child & youth development, (3) health, (4) productivity, (5) environment, (6) values formation, and (7) community empowerment, as well as backroom operations, communications, and documentation.

Fueled by volunteers in the spirit of "bayanihan," GK Builders Corps seeks to redefine volunteerism and create a new culture and lifestyle by breeding a new generation of heroes as missionaries for the poor and the country.

The GK Builders Corps application form is on the reverse side.
